

Santushti Singh

Phone: 7003094210 | singhsantushti111@gmail.com | [GitHub](#) | [LinkedIn](#)

TECHNICAL SKILLS

Languages: Java, Python, C, C++, JavaScript
Web & Backend: React.js, Node.js, Express.js, REST APIs, HTML, CSS
Databases: MySQL (real-time storage & retrieval)
Hardware / IoT: Arduino, ESP32, Sensor Integration, Real-Time Data Pipelines
Tools & Core Competencies: GitHub, Figma, DSA, OOP, DBMS, API Integration, Problem-Solving

EXPERIENCE

Research Analyst / Developer (Intern) — IRADe Ongoing

- Developed a React.js/TypeScript web application for renewable energy planning with an interactive UI and integrated financial analysis modules.
- Implemented database-backed calculations to support near real-time decision-support workflows.

Frontend Intern — Vaultfcodes 1 Month

- Collaborated with a team to build and enhance responsive, clean UI components.

PROJECTS

Battery Energy Storage & Solar PV Decision Support System

- Built a React.js/TypeScript web app for renewable energy planning with interactive UI and financial analysis modules.

Automated Bulk Email System

- Engineered a scripted API/SMTP mailing system to send bulk emails to thousands of recipients per run.

IoT Water Quality Monitoring System

- Integrated sensors with backend APIs and a real-time dashboard, plus automated alert notifications.

IoT Smart Posture & Sitting Alert System

- Built an ESP32-based posture monitor using pressure sensors for real-time detection, live dashboard, and alerts.

Customer Behaviour Analysis

- Performed exploratory data analysis with Python and SQL to identify customer segments and purchasing patterns.

Resume Builder

- Built a responsive resume builder using React.js, JavaScript, HTML, and CSS.

EDUCATION

B.Tech, Computer Science Engineering (Artificial Intelligence) 2022 – 2026

CGPA: 8.19 | Class XII: 86% | Class X: 76%

CERTIFICATIONS & ACHIEVEMENTS

- Java (NPTEL, 12-week): Java fundamentals, data structures, OOP, JDBC (database connectivity).
- Smart India Hackathon (SIH): Selected participant; developed solutions for real-world problem statements.
